Persia	1	-	4	6	A14	-
Sumer	2	9	-	-	H11	-
Urartu	-	-	4	7	B7	-

The Ur, 1830 BC map does not bear any hex references. These have been added using standard notation, i.e. row A at the top, column 1 at the left-most edge.

While not all of the spaces look like hexes, they do fit into the concept of the hex grid.

Starting Cash		Certificate Limits	
3-player	600 SPL	3-player	30
4-player	450 SPL	4-player	30
5-player	360 SPL	5-player	30
6-player	300 SPL	6-player	30

Stock Market	
Type	Linear
Zones	Starting value spaces for land types Orange (Intervention zone)
'Closed' space	No

Game Map	Desert	Savannah	Forest	Hills	Rivers
Hexes: 90	17	17	18	15	23

The total count of individual items will usually exceed the total number of hexes shown. This will be due to hexes that contain multiple items, such as towns and cities in off-board areas and fixed locations.

Clear	Where tiles with plain track may be laid. May include hexes with pre-printed track.
1 Town	Where tiles with a single town (no station token space) may be laid.
2 Towns	Where tiles with two towns (no station token spaces) may be laid.
Cities	Where tiles with station token spaces may be laid, or where stations printed on the board may be upgraded. Does not include 'OO' hexes.
'OO'	Yellow hexes where green tiles designated as 'OO' tiles with two separate station token spaces may be laid.
Off-Board	Static, where trains may run to off-board areas, typically with values that vary according to the phase of the game. Usually includes fixed locations that have variable income. No tile lays allowed. An off-board area may consist of more than one hex - each area is usually counted only once for each train.
Fixed	Static, usually with track or fixed value stations printed on the map. No tile lays allowed.
Rivers and Mountains	Hexes that contain these features with a cost to place or upgrade tiles. Other features appear occasionally (Desert, Forest, Swamp).

Waterworks and Diggers	Type	2/1/1+1	4/2/2	6/3/3	8/4/4	M/M/M
Total: 38	Cost	30/30/50	80/80/100	100/100/150	150/150/200	200/200/400
	Qty	10	8	7	5	8

The Type and Cost figures refer to Reservoirs/Pumps/Diggers.
